No Roads Through City Mall!

We the undersigned call upon Christchurch City Council to change its plan to destroy the City Mall by putting traffic through Cashel and High Streets.

- City Mall is a unique, well-used public space for shopping and socialising in the inner city.
- Putting vehicles through the City Mall will destroy a special part of Christchurch. People will be put off walking and spending time in the area, which will hurt businesses.
- $10 million of ratepayers' money will be wasted to bring in noisy traffic! Council should invest to modernise and enhance the Mall, and attract people to shop and enjoy themselves.
- 75% of people consulted said NO to roads. Most retailers in City Mall want improvements, but are against putting in roads. Councillors have decided without listening!

Support the inner city – No roads through the City Mall!
